INSTRUCTIONS TO CANDIDATES

1. Write your candidate number here ____________. Your name must not appear.
2. Do not break the seal of this book until the supervisor tells you to do so.
3. Special conditions generally applicable to all questions on this examination are found at the front of this book.
4. All questions should be answered in accordance with laws, rules and regulations in effect as of June 30, 2009.
5. This examination consists of 59 multiple-choice questions of varying value. The point value for each question is shown in parenthesis at the beginning of each question. Total point value is 160.
6. Your score will be based on the point values for the questions that you answer correctly. No credit will be given for omitted answers and no credit will be lost for wrong answers; hence, you should answer all questions even those for which you have to guess. Answer choices C, D, and E will be considered incorrect answers on True-False questions.
7. A separate answer sheet is inside the front cover of this book. During the time allotted for this examination, record all your answers on side 2 of the answer sheet. NO ADDITIONAL TIME WILL BE ALLOWED FOR THIS PURPOSE. No credit will be given for anything indicated in the examination book but not transferred to the answer sheet. Failure to stop writing or coding your answer sheet after time is called will result in the disqualification of your answer sheet or further disciplinary action.
8. Five answer choices are given with each question, each answer choice being identified by a key letter (A to E). For each question, blacken the oval on the answer sheet which corresponds to the key letter of the answer choice that you select.
9. Use a soft-lead pencil to mark the answer sheet. To facilitate correct mechanical scoring, be sure that, for each question, your pencil mark is dark and completely fills only the intended oval. Make no stray marks on the answer sheet. If you have to erase, do so completely.
10. Do not spend too much time on any one question. If a question seems too difficult, leave it and go on.
11. While every attempt is made to avoid defective questions, sometimes they do occur. If you believe a question is defective, the supervisor or proctor cannot give you any guidance beyond the instructions on the exam booklet.
12. Clearly indicated answer choices in the test book can be an aid in grading examinations in the unlikely event of a lost answer sheet.
13. Use the blank portions of each page for your scratch work. Extra blank pages are provided at the back of the examination book.
14. When the supervisor tells you to do so, break the seal on the book and remove the answer sheet.
On side 1 of the answer sheet, space is provided to write and to code candidate information. Complete Blocks A through G as follows:
(a) in Block A, print your name and the name of this test center;
(b) in Block B, print your last name, first name and middle initial and code your name by blackening the ovals (one in each column) corresponding to the letters of your name; for each empty box, blacken the small rectangle immediately above the "A" oval;
(c) write your candidate number in Block C (as it appears on your ticket of admission for this examination) and write the number of this test center in Block D (the supervisor will supply the number);
(d) code your candidate number and center number by blackening the five ovals (one in each column) corresponding to the five digits of your candidate number and the three ovals (one in each column) corresponding to the last three digits of the test center number, respectively. Please be sure that your candidate number and the test center number are coded correctly;
(e) in Block E, code the examination that you are taking by blackening the oval to the left of “Course EA-2, Segment A.”
(f) in Block F, blacken the appropriate oval to indicate whether you are using a calculator; and
(g) in Block G, sign your name and write today's date. If the answer sheet is not signed, it will not be graded.
On side 2 of your answer sheet, space is provided at the top for the number of this examination book. Enter the examination book number, from the upper right-hand corner of this examination book, in the four boxes at the top of side 2 marked "BOOKLET NUMBER."
15. After the examination, the supervisor will collect this book and the answer sheet separately. DO NOT ENCLOSE THE ANSWER SHEET IN THE BOOK. All books and answer sheets must be returned. THE QUESTIONS ARE CONFIDENTIAL AND MAY NOT BE TAKEN FROM THE EXAMINATION ROOM.

Data for Question 1  (1 point)

A 2009 plan year contribution is made on 4/1/2010.

Consider the following statement:

When calculating the 1/1/2010 value of plan assets, this contribution must be discounted using the 2010 effective interest rate.

Question 1

Is the above statement true or false?

(A) True

(B) False
Data for Question 2 (1 point)

A plan is established in 2008 and was exempt from establishing shortfall amortization bases for 2008 and 2009. The plan has no prefunding balance at 1/1/2010.

Consider the following statement:

The plan is exempt from establishing a shortfall amortization base for 2010 if the ratio of plan assets to the funding target as of 1/1/2010 is at least 96%.

Question 2

Is the above statement true or false?

(A) True

(B) False
Data for Question 3  (1 point)

Consider the following statement:

Frozen plans are exempt from the quarterly contribution requirement.

Question 3

Is the above statement true or false?

(A) True

(B) False
Data for Question 4  (1 point)

Consider the following statement regarding excise taxes for a multiemployer plan:

The initial tax rate on an accumulated funding deficiency is 10%.

**Question 4**

Is the above statement true or false?

(A) True

(B) False
Data for Question 5  (1 point)

Effective 12/31/2009, a plan is frozen and the plan’s IRC section 417(e) assumptions are amended as described below:

<table>
<thead>
<tr>
<th>Stability period</th>
<th>Look-back period</th>
</tr>
</thead>
<tbody>
<tr>
<td>Before 2010</td>
<td>Calendar year</td>
</tr>
<tr>
<td>After 2009</td>
<td>Calendar year</td>
</tr>
<tr>
<td></td>
<td>four months</td>
</tr>
<tr>
<td></td>
<td>one month</td>
</tr>
</tbody>
</table>

Consider the following statement:

Voluntary lump sum distributions with an annuity starting date in 2010 must be no less than the distribution based on the September 2009 or the December 2009 minimum present value segment rates, whichever produces the larger value.

Question 5

Is the above statement true or false?

(A) True

(B) False
Data for Question 6 (1 point)

Type of plan: Multiemployer.

Status: Critical.

A rehabilitation plan is adopted on 11/1/2009.

Consider the following statement:

The plan may not be amended to increase future benefit accruals after the date of adoption of the rehabilitation plan and prior to the end of the rehabilitation period.

Question 6

Is the above statement true or false?

(A) True

(B) False
Data for Question 7  (1 point)

The applicable interest rate for a calendar year qualified defined benefit plan is based on the segment rates in effect for September before the plan year that contains the IRC section 417(e) lump sum distribution date.

Consider the following statement:

The plan sponsor must use the September 2009 segment rates to determine the funding target at 1/1/2010.

Question 7

Is the above statement true or false?

(A) True

(B) False
Data for Question 8  (1 point)

On 1/1/2009, a plan with 600 participants has a funding target attainment percentage of 78% if at-risk assumptions are not used and 67% if at-risk assumptions are used.

Consider the following statement:

The plan is in at-risk status as of 1/1/2010.

Question 8

Is the above statement true or false?

(A) True

(B) False
Data for Question 9 (1 point)

Effective interest rate: 6%.

Funding standard carryover balance as of 1/1/2010: $0.

Prefunding balance as of 1/1/2010: $0.

For the 2010 plan year, the minimum required contribution as of 1/1/2010 is $900,000.

Contributions for the 2010 plan year:

<table>
<thead>
<tr>
<th>Date</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>9/15/2011</td>
<td>$700,000</td>
</tr>
</tbody>
</table>

Consider the following statement:

An excise tax of $20,000 is imposed on the plan sponsor as of 9/15/2011 for failure to meet the minimum funding standard.

Question 9

Is the above statement true or false?

(A) True

(B) False
Data for Question 10 (2 points)

The pension plan has been frozen since 12/31/1999.

The actuarial value of assets has always been market value.

Funding target attainment percentages:

<table>
<thead>
<tr>
<th>Date</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>1/1/2007</td>
<td>92.8%</td>
</tr>
<tr>
<td>1/1/2008</td>
<td>93.1%</td>
</tr>
<tr>
<td>1/1/2009</td>
<td>94.1%</td>
</tr>
<tr>
<td>1/1/2010</td>
<td>95.7%</td>
</tr>
</tbody>
</table>

The plan has always had more than 500 participants.

Consider the following statement:

There are no quarterly contribution payments required for the 2010 plan year.

Question 10

Is the above statement true or false?

(A) True

(B) False
Data for Question 11  (2 points)

A plan has a prefunding balance as of 1/1/2009. Any prefunding balance remaining after employer elections is adjusted with interest during the plan year to 1/1/2010.

\[ X = \text{The effective interest rate} \]
\[ Y = \text{The actual rate of return on the market value of the plan’s assets} \]

Question 11

Which interest rate is used for crediting interest on the prefunding balance?

(A) \( X \)

(B) \( Y \)

(C) The greater of \( X \) or \( Y \)

(D) The lesser of \( X \) or \( Y \)

(E) The correct answer is not given by (A), (B), (C), or (D) above.
### Data for Question 12 (2 points)

This question consists of an **assertion** in the left column and a **reason** in the right column.

<table>
<thead>
<tr>
<th>ASSERTION</th>
<th>REASON</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mortality rates for disabled participants developed based on Social Security data are generally not suitable for use in pension plans that use a more liberal definition of disability.</td>
<td>A more liberal definition of disability means that participants considered to be disabled under that definition would generally be healthier than those eligible for Social Security disability benefits.</td>
</tr>
</tbody>
</table>

### Question 12

Which of the following statements is true?

(A) Both the assertion and the reason are true statements and the reason is a correct explanation of the assertion.

(B) Both the assertion and the reason are true statements, but the reason is NOT a correct explanation of the assertion.

(C) The assertion is a true statement, but the reason is a false statement.

(D) The assertion is a false statement, but the reason is a true statement.

(E) Both the assertion and the reason are false statements.
Data for Question 13 (2 points)

This question consists of an assertion in the left column and a reason in the right column.

<table>
<thead>
<tr>
<th><strong>ASSERTION</strong></th>
<th><strong>REASON</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>The actuary for a plan that is spun-off from a larger plan should continue to use the termination and retirement assumptions that were used by the actuary for the plan before spin-off, without independent verification of the assumptions.</td>
<td>The anticipated experience for the spun-off portion of the plan is always consistent with the anticipated experience for the full plan before spin-off if the plan provisions in the spun-off plan are unchanged.</td>
</tr>
</tbody>
</table>

**Question 13**

Which of the following statements is true?

(A) Both the assertion and the reason are true statements and the reason is a correct explanation of the assertion.
(B) Both the assertion and the reason are true statements, but the reason is NOT a correct explanation of the assertion.
(C) The assertion is a true statement, but the reason is a false statement.
(D) The assertion is a false statement, but the reason is a true statement.
(E) Both the assertion and the reason are false statements.
Data for Question 14 (3 points)

Funding standard carryover balance as of 1/1/2010: $10,000.

Prefunding balance as of 1/1/2010: $10,000.

Selected valuation results as of 1/1/2010:

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Funding target</td>
<td>$980,000</td>
</tr>
<tr>
<td>Target normal cost</td>
<td>50,000</td>
</tr>
</tbody>
</table>

The actuarial value of assets was changed on 1/1/2010.

Actuarial value of assets as of 1/1/2010:

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Before the method change</td>
<td>$955,000</td>
</tr>
<tr>
<td>After the method change</td>
<td>940,000</td>
</tr>
</tbody>
</table>

Funding target attainment percentage for 2009: 100%.

7-year shortfall amortization factor for 2010: 5.9574.

The employer makes a single contribution of $X on 1/1/2010 in the smallest amount that satisfies the minimum funding standard for the 2010 plan year.

Question 14

In what range is the absolute value of the change in $X due to the asset method change?

(A) Less than $3,000

(B) $3,000 but less than $13,000

(C) $13,000 but less than $23,000

(D) $23,000 but less than $33,000

(E) $33,000 or more
Data for Question 15 (3 points)

Plan effective date: 1/1/2000.

Normal retirement benefit: 3% of final year salary for each year of service.

Assumptions:
- Segment rates: \{5.0\%, 6.0\%, 7.0\%\}
- Salary increases: 3\% per year

Funding standard carryover balance as of 1/1/2010: $15,000.

Actuarial (market) value of assets at 1/1/2010: $60,000.

Data for sole plan participant:
- Date of birth: 1/1/1965
- Date of hire: 1/1/2000
- 2009 salary: $90,000

Selected actuarial factors:

| Interest Rate | $a_{\overline{12}\!|55}$ |
|---------------|-----------------|
| 5.0\%         | 10.00           |
| 6.0\%         | 9.00            |
| 7.0\%         | 8.00            |

**Question 15**

In what range is the deductible limit for the 2010 tax year?

(A) Less than $55,000  
(B) $55,000 but less than $65,000  
(C) $65,000 but less than $75,000  
(D) $75,000 but less than $85,000  
(E) $85,000 or more
Data for Question 16 (4 points)

Type of plan: Multiemployer plan.

Plan effective date: 1/1/2008.

Actuarial cost method: Entry age normal.

Valuation interest rate:

| Before 2010 | 7.5% per year |
| After 2009  | 7.0% per year |

Annual amortization charge/(credit) for an actuarial experience base established 1/1/2009: $(80,000).

There are no other amortization bases established before 1/1/2010.

Experience loss during 2009: $150,000.

Increase as of 1/1/2010 due to the change in the valuation interest rate:

| Accrued liability | $200,000 |
| Normal cost       | 18,000   |

Question 16
In what range is the change in the minimum required contribution for 2010 as of 1/1/2010 due to the change in the valuation interest rate?

(A) Less than $37,300

(B) $37,300 but less than $38,800

(C) $38,800 but less than $40,300

(D) $40,300 but less than $41,800

(E) $41,800 or more
Data for Question 17 (2 points)

Plan year: 7/1 – 6/30.

Lump sum basis: IRC section 417(e) applicable interest rate and applicable mortality.

Look-back month: The third month preceding the first day of the stability period.

Stability period: 1 calendar quarter.

Data for participant Smith:

- Date of birth: 11/1/1944
- Date of termination: 10/31/2009
- Date of payment: 11/1/2009
- Monthly accrued benefit: $1,000

Related annuity factors using applicable interest rate and applicable mortality by month:

<table>
<thead>
<tr>
<th>Month</th>
<th>$\ddot{a}_{65}^{(12)}$</th>
<th>Month</th>
<th>$\ddot{a}_{65}^{(12)}$</th>
</tr>
</thead>
<tbody>
<tr>
<td>October 2008</td>
<td>11.24</td>
<td>May 2009</td>
<td>11.86</td>
</tr>
<tr>
<td>November 2008</td>
<td>11.33</td>
<td>June 2009</td>
<td>11.71</td>
</tr>
<tr>
<td>December 2008</td>
<td>11.48</td>
<td>July 2009</td>
<td>11.93</td>
</tr>
<tr>
<td>January 2009</td>
<td>11.68</td>
<td>August 2009</td>

<td>11.83</td>
<td>November 2009</td>
<td>11.71</td>
</tr>
</tbody>
</table>

**Question 17**

In what range is Smith’s lump sum on 11/1/2009?

(A) Less than $135,000
(B) $135,000 but less than $137,500
(C) $137,500 but less than $140,000
(D) $140,000 but less than $142,500
(E) $142,500 or more
Data for Question 18 (3 points)

Type of plan: Multiple employer.

Unrelated employers A, B, and C are participating employers of the multiple employer plan.

Smith’s date of hire by both employer A and employer B: 1/1/2005.

Before 2009, Smith is employed solely by employers A and B.

Effective 1/1/2009 Smith is employed solely by employer C.

Accrued benefit: 1% of compensation for each year (career average).

Smith’s work history:

<table>
<thead>
<tr>
<th>Plan year</th>
<th>Compensation from employer</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Employer A</td>
</tr>
<tr>
<td>2005</td>
<td>$153,000</td>

<td></td>
</tr>
<tr>
<td>2010</td>
<td></td>
</tr>
</tbody>
</table>

Assumed 2010 IRC section 401(a)(17) limit: $260,000.

Question 18

In what range is Smith’s accrued benefit as of 12/31/2010?

(A) Less than $14,000

(B) $14,000 but less than $15,000

(C) $15,000 but less than $16,000

(D) $16,000 but less than $17,000

(E) $17,000 or more
Data for Question 19 (3 points)

Plan effective date: 1/1/2000.

<table>
<thead>
<tr>
<th></th>
<th>1/1/2009</th>
<th>1/1/2010</th>
</tr>
</thead>
<tbody>
<tr>
<td>Funding standard carryover balance</td>
<td>$1,250,000</td>
<td>$1,325,000</td>
</tr>
<tr>
<td>Prefunding balance</td>
<td>950,000</td>
<td>1,100,000</td>
</tr>
</tbody>
</table>

Selected valuation results:

<table>
<thead>
<tr>
<th></th>
<th>1/1/2009</th>
<th>1/1/2010</th>
</tr>
</thead>
<tbody>
<tr>
<td>Actuarial (market) value of assets</td>

<td>$32,400,000</td>
</tr>
<tr>
<td>Funding target</td>
<td>25,000,000</td>
<td>32,500,000</td>
</tr>
</tbody>
</table>

The plan sponsor elects to use the carryover balance and prefunding balance, to the extent available, to offset the minimum required contribution in 2010.

Consider the following statements:

I. The plan sponsor may use the carryover balance toward the minimum funding requirement at 1/1/2010.
II. The plan is exempt from establishing a shortfall amortization base as of 1/1/2010.
III. The plan sponsor is subject to quarterly contribution requirements in 2010.

Question 19

Which, if any, of the above statement(s) is (are) true?

(A) I and II only
(B) I and III only
(C) II and III only
(D) I, II, and III
(E) The correct answer is not given by (A), (B), (C), or (D) above.
Data for Question 20 (2 points)

Type of plan: Multiemployer plan.

Selected valuation results as of 1/1/2010:

- Actuarial accrued liability under unit credit cost method: $1,000,000
- Actuarial (market) value of assets: $820,000

The first funding deficiency for the plan is projected to occur in 2016.

The plan is not projected to be insolvent within the next 9 years.

The plan was not in endangered, seriously endangered, or critical status for the 1/1/2008 or 1/1/2009 plan years.

Question 20

For purposes of IRC Section 432, what is the plan’s status for 2010?

(A) Endangered

(B) Seriously endangered

(C) Critical

(D) None of the above

(E) Cannot be determined using the given information.
Data for Question 21 (2 points)

Normal form of payment: Life annuity.

Optional forms of payment:

Joint and 50% survivor annuity (QJSA)
Joint and 75% survivor annuity (QOSA)
Joint and 100% survivor annuity
Lump sum
10-year certain and life annuity
Social security level income

Question 21

How many of the above optional forms of payment are subject to the minimum present value requirements of IRC section 417(e)?

(A) 1
(B) 2
(C) 3
(D) 4
(E) 5 or more
Data for Question 22 (3 points)

Average annual compensation for accrued benefits is defined as the highest consecutive 36 months of compensation.

Data for participant Smith:

<table>
<thead>
<tr>
<th>Date of retirement</th>
<th>10/31/2008</th>
</tr>
</thead>
<tbody>
<tr>
<td>Monthly compensation during 2005</td>
<td>$17,500</td>
</tr>
<tr>
<td>Monthly compensation during 2006</td>
<td>18,000</td>
</tr>
<tr>
<td>Monthly compensation during 2007</td>
<td>18,250</td>
</tr>
<tr>
<td>Monthly compensation during 2008</td>
<td>19,500</td>
</tr>
</tbody>
</table>

Question 22

In what range is the average annual compensation that should be used in the calculation of Smith’s accrued benefit as of 10/31/2008?

(A) Less than $218,000
(B) $218,000 but less than $219,000
(C) $219,000 but less than $220,000
(D) $220,000 but less than $221,000
(E) $221,000 or more

On March 1, 2010, the plan sponsor makes an election to apply the entire funding standard carryover balance to offset the minimum required contribution for the 2010 plan year.

The employer makes a quarterly contribution of $X on 4/15/2010 in the **smallest amount that satisfies the quarterly requirement** for the 2010 plan year.

---

**Question 23**

In what range is $X$?

(A) Less than $29,000
(B) $29,000 but less than $30,000
(C) $30,000 but less than $31,000
(D) $31,000 but less than $32,000
(E) $32,000 or more
Consider the following statements that apply to single employer plans:

I. Other than prescribed assumptions, actuarial assumptions must individually and in combination present the actuary’s best estimate of anticipated experience under the plan.

II. Other than mortality, interest, and retirement decrements, all other assumptions for at-risk plans are chosen by the actuary.

III. For plans with unfunded vested benefit liabilities of at least $50,000,000 based on assumptions used for PBGC purposes, all assumption changes must be approved by the IRS.

Question 24
Which, if any, of the above statement(s) is (are) true?

(A) I and II only
(B) I and III only
(C) II and III only
(D) I, II, and III
(E) The correct answer is not given by (A), (B), (C), or (D) above.
Data for Question 25 (5 points)

Type of plan: Multiemployer.

Plan effective date: 1/1/2000.

Normal retirement benefit:
   Before 2010 $40 per month for each year of service.
   After 2009 $45 per month for each year of service.

Actuarial cost method: Frozen initial liability.

Valuation interest rate: 7% per year.

Initial accrued liability: $700,000.

Credit balance in funding standard account as of 12/31/2009: $40,000.

Selected valuation results as of 1/1/2010 before any benefit changes:

Question 37

In what range is Smith’s accrued benefit as of 12/31/2009?

(A) Less than $100,000

(B) $100,000 but less than $110,000

(C) $110,000 but less than $120,000

(D) $120,000 but less than $130,000

(E) $130,000 or more
Data for Question 38  (3 points)

Normal retirement benefit:  $100 per month for each year of service.

The last benefit increase was effective on 1/1/2000.

Effective interest rate: 5.5%.

Plan participants at 1/1/2010:  600.

Selected valuation results as of 1/1/2010:

- Market value of assets $950,000
- Actuarial value of assets 900,000
- Funding target 1,100,000
- Target normal cost 90,000
- Funding target using at-risk assumptions for IRC section 404 purposes 1,300,000
- Target normal cost using at-risk assumptions for IRC section 404 purposes 100,000

Question 38

In what range is the deductible limit for the 2010 plan year?

(A) Less than $435,000

(B) $435,000 but less than $635,000

(C) $635,000 but less than $835,000

(D) $835,000 but less than $1,035,000

(E) $1,035,000 or more
Data for Question 39 (2 points)

Type of plan: Cash balance.

Death benefit eligibility for unmarried participants: 5 years of service.

Death benefit: Account balance paid at end of year of death.

Valuation date: 1/1/2010.

Segment rates: {5.0%, 6.0%, 7.0%}.

Selected assumptions:

- Future interest crediting rate 6%
- \( 4P_{61} \) 0.98237
- Assumed form of payment Lump sum
- No decrements before retirement other than mortality are assumed.

Data for sole plan participant Smith as of 1/1/2010:

- Age 61
- Years of service 1
- Account balance $200,000
- Marital Status Single

Question 39

In what range is the funding target for participant Smith as of 1/1/2010?

(A) Less than $192,000
(B) $192,000 but less than $197,000
(C) $197,000 but less than $202,000
(D) $202,000 but less than $207,000
(E) $207,000 or more
Data for Question 40 (2 points)

The actuary for a multiemployer plan is considering the following mortality tables for the purpose of calculating the accrued liability for minimum funding purposes:

A. Mortality tables used by insurance companies in developing individual annuities
B. Mortality tables used by insurance companies in developing group annuities
C. Mortality experience based on the general population in the United States

Consider the following statements:

I. With respect to the general characteristics of this pension plan’s participants, of the above mortality tables, Table A would generally be the most appropriate for use in calculating the plan’s accrued liability.
II. Table A would generally have higher rates of mortality than Table B.
III. Table C would generally have higher rates of mortality than Table B.

Question 40

Which, if any, of the above statement(s) is (are) true?

(A) None
(B) I only
(C) II only
(D) III only
(E) The correct answer is not given by (A), (B), (C), or (D) above
Data for Question 41 (4 points)

Valuation date: 1/1/2010.

Normal retirement benefit:

Before 2010 $25 per month for each year of service
After 2009 $30 per month for each year of service

Early retirement benefit: Unreduced at age 62 with 30 years of service.

2009 and 2010 segment rates: \{5.0\%, 6.0\%, 7.0\%\}.

Assumptions for 2009 and 2010 plan years:
Retirement rates 40\% at age 62 and 100\% at age 65
Pre-retirement mortality None

Data for sole participant:
Date of birth 1/1/1948
Date of hire 1/1/1975

Question 41

In what range is the increase in the funding target as of 1/1/2010 due to the plan amendment?

(A) Less than $20,600  
(B) $20,600 but less than $23,600  
(C) $23,600 but less than $26,600  
(D) $26,600 but less than $29,600  
(E) $29,600 or more
Data for Question 42  (4 points)

Plan effective date:  1/1/2000.

Funding standard carryover balance at 1/1/2010:  $0.

Prefunding balance at 1/1/2010: $0.

Selected valuation results as of 1/1/2010:

- Market value of assets: $2,700,000
- Actuarial value of assets: 2,970,000
- Funding target: 3,400,000
- Target normal cost: 80,000
- 7-year amortization factor: 5.9982
- 6-year amortization factor: 5.2932
- 5-year amortization factor: 4.5460
- 2008 shortfall amortization installment: 30,000
- 2009 shortfall amortization installment: 25,000

The plan was subject to IRC section 412(l) for the 2007 plan year.

Question 42

In what range is the **minimum required contribution** as of 1/1/2010?

(A) Less than $140,000

(B) $140,000 but less than $160,000

(C) $160,000 but less than $180,000

(D) $180,000 but less than $200,000

(E) $200,000 or more
Data for Question 43 (4 points)

Type of plan: Multiemployer.

Valuation date: 1/1/2010.

Actuarial cost method: Aggregate.

Valuation interest rate: 7% per year.

Actuarial (market) value of assets as of 1/1/2009: $900,000.

2009 plan year contributions:

<table>
<thead>
<tr>
<th>Date</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>4/1/2009</td>
<td>$35,000</td>
</tr>
<tr>
<td>7/1/2009</td>
<td>35,000</td>
</tr>
<tr>
<td>10/1/2009</td>
<td>35,000</td>
</tr>
<tr>
<td>12/31/2009</td>
<td>35,000</td>
</tr>
</tbody>
</table>

2009 retiree benefit payments made 7/1/2009: $60,000.

2009 actual return on assets: 5.5%.

Credit balance in funding standard account as of 12/31/2009: $0.

Selected valuation results as of 1/1/2010:

- Present value of future benefits: $1,800,000
- Present value of future compensation: $3,250,000
- Total compensation: $150,000

Question 43

In what range is the value of the change in normal cost for minimum funding as of 1/1/2010 due to investment experience?

(A) Less than $630
(B) $630 but less than $650
(C) $650 but less than $670
(D) $670 but less than $690
(E) $690 or more
Data for Question 44 (4 points)

Plan effective date: 1/1/2008.

Normal retirement benefit: $75 per month for each year of service.

Segment rates at 1/1/2010: {4.0%, 5.0%, 6.0%}.

Prefunding balance at 1/1/2009: $0.

Selected valuation results:

<table>
<thead>
<tr>
<th></th>

</tbody>
</table>

The employer makes a single contribution of $X$ on 1/1/2010 in the smallest amount that satisfies the minimum funding standard for 2010.

Question 44

In what range is $X$?

(A) Less than $7,000
(B) $7,000 but less than $7,200
(C) $7,200 but less than $7,400
(D) $7,400 but less than $7,600
(E) $7,600 or more
Data for Question 45 (3 points)

Valuation date: 1/1/2010.

Effective interest rate: 5.5% per year.

Selected valuation results as of 1/1/2010:

- Actuarial (market) value of assets: $350,000
- Funding target: $400,000
- Target normal cost: $50,000
- Increase in funding target due to future earnings increases: $65,000
- Funding target using at-risk assumptions, for IRC section 404 purposes: $600,000
- Target normal cost using at-risk assumptions, for IRC section 404 purposes: $60,000

Question 45

In what range is the deductible limit for 2010?

(A) Less than $291,000
(B) $291,000 but less than $323,000
(C) $323,000 but less than $355,000
(D) $355,000 but less than $387,000
(E) $387,000 or more
Data for Question 46  (3 points)

Plan effective date:  1/1/2008.

Prefunding balance as of 1/1/2010:  $100,000.

Selected valuation results as of 1/1/2010:

\[
\begin{align*}
\text{Actuarial value of assets} & \quad 2,125,000 \\
\text{Funding target} & \quad 2,100,000 \\
\text{Target normal cost} & \quad 205,000
\end{align*}
\]

Shortfall amortization installments:

\[
\begin{align*}
2008 & \quad 0 \\
2009 & \quad 28,000
\end{align*}
\]

Shortfall amortization factors for 2010:

\[
\begin{align*}
7\text{-year} & \quad 5.9982 \\
6\text{-year} & \quad 5.2932
\end{align*}
\]

Question 46

In what range is the **minimum required contribution** as of 1/1/2010?

(A)  Less than $200,000
(B)  $200,000 but less than $215,000
(C)  $215,000 but less than $230,000
(D)  $230,000 but less than $245,000
(E)  $245,000 or more
Data for Question 47 (4 points)

Type of plan: Multiemployer plan.

Funding method: Unit credit.

Early retirement age: 55.

Early retirement benefit: Accrued benefit reduced by 6% for each of the first six years and by 5% for each of the next four years by which the benefit commencement date precedes the normal retirement date.

Selected actuarial assumptions:

<table>
<thead>
<tr>
<th>Interest rate</th>
<th>6.0%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Retirement age</td>
<td>65</td>
</tr>
</tbody>
</table>

Selected annuity values: \( \ddot{a}_x \)

<table>
<thead>
<tr>
<th>Age</th>
<th>( \ddot{a}_x )</th>
</tr>
</thead>
<tbody>
<tr>
<td>55</td>
<td>13.70</td>
</tr>
<tr>
<td>59</td>
<td>13.00</td>
</tr>
<tr>
<td>62</td>
<td>12.40</td>
</tr>
<tr>
<td>65</td>
<td>11.70</td>
</tr>
</tbody>
</table>

Data for selected plan participants:

<table>
<thead>
<tr>
<th>Name</th>
<th>Date of birth</th>
<th>Accrued benefit at 12/31/2009</th>
</tr>
</thead>
<tbody>
<tr>
<td>Smith</td>
<td>1/1/1948</td>
<td>$725</td>
</tr>
<tr>
<td>Jones</td>
<td>1/1/1951</td>
<td>$375</td>
</tr>
<tr>
<td>Brown</td>
<td>1/1/1955</td>
<td>$150</td>
</tr>
</tbody>
</table>

All three participants retire on 12/31/2009 and begin receiving their benefits on 1/1/2010.

**Question 47**

The retirements of which, if any, of the participants will result in an experience loss?

(A) Smith and Jones only

(B) Smith and Brown only

(C) Jones and Brown only

(D) Smith, Jones, and Brown

(E) The correct answer is not given by (A), (B), (C), or (D) above.
Data for Question 48  (3 points)

Plan effective date:  1/1/2000.

Valuation date:  1/1/2010.

Funding standard carryover balance at 1/1/2010:  $0.

Prefunding balance as of 1/1/2010:  $20,000.

Selected valuation results as of 1/1/2010:

| Actuarial (market) value of assets | $910,000 |
| Funding target                     | 1,000,000 |
| Target normal cost                 | 75,000    |

Shortfall amortization installment for base established 1/1/2009:  $15,000.

There was no shortfall amortization base established in 2008.

Amortization factors for 2010 plan year for shortfall amortization installments:

<table>
<thead>
<tr>
<th>Years</th>
<th>Factor</th>
</tr>
</thead>
<tbody>
<tr>
<td>5 years</td>
<td>4.5459</td>
</tr>
<tr>
<td>6 years</td>
<td>5.3295</td>
</tr>
<tr>
<td>7 years</td>
<td>6.0757</td>
</tr>
</tbody>
</table>

The employer makes a single contribution of $X on 1/1/2010 in the smallest amount that satisfies the minimum funding standard for the 2010 plan year.

Question 48

In what range is $X?  

(A) Less than $64,000
(B) $64,000 but less than $66,000
(C) $66,000 but less than $68,000
(D) $68,000 but less than $70,000
(E) $70,000 or more
Data for Question 49 (4 points)

IRC section 417(e) segment rates: \{5.0\%, 6.0\%, 6.5\%\}.

Data for participant Smith:

- Date of birth: 1/1/1945
- Date of hire: 1/1/1990
- Date of participation: 1/1/1995
- Normal retirement benefit: $25,000 per year payable monthly

Selected commutation functions based on IRC section 417(e) applicable mortality:

<table>
<thead>
<tr>
<th>Age</th>
<th>Segment rate 1</th>
<th>Segment rate 2</th>
<th>Segment rate 3</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>(N_x^{(12)})</td>
<td>(D_x)</td>
<td>(N_x^{(12)})</td>
</tr>
<tr>
<td>65</td>
<td>713,162</td>
<td>51,213</td>
<td>368,975</td>
</tr>
<tr>
<td>70</td>
<td>482,841</td>
<td>38,821</td>
<td>240,861</td>
</tr>
<tr>
<td>85</td>
<td>309,979</td>
<td>28,602</td>
<td>149,149</td>
</tr>
</tbody>
</table>

Selected annuity value using the plan’s lump sum basis:

\[a_{65}^{(12)} = 11.31\]

On 1/1/2010, Smith retired and elected a lump sum payment.

Question 49

In what range is the amount of the lump sum payable to Smith as of 1/1/2010?

(A) Less than $285,000
(B) $285,000 but less than $305,000
(C) $305,000 but less than $325,000
(D) $325,000 but less than $345,000
(E) $345,000 or more
Data for Question 50  (4 points)

Early retirement age:  55 with 20 years of service.

Early retirement benefit:  Accrued benefit, payable immediately.

Vested termination benefit, if fewer than 20 years of service: Accrued benefit, payable at age 65.

Select participant data:

<table>
<thead>
<tr>
<th></th>
<th>Smith</th>
<th>Jones</th>
<th>Brown</th>
</tr>
</thead>
<tbody>
<tr>
<td>Date of birth</td>
<td>1/1/1955</td>
<td>1/1/1960</td>
<td>1/1/1955</td>
</tr>
<tr>
<td>Date of hire</td>
<td>1/1/1990</td>
<td>1/1/1995</td>
<td>1/1/2000</td>
</tr>
<tr>
<td>Monthly accrued benefit</td>
<td>$1,500</td>
<td>$1,125</td>
<td>$750</td>
</tr>
</tbody>
</table>

Selected assumptions for 414(l) calculations:

<p>| | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Interest</td>
<td>7% per year</td>
<td></td>
</tr>
<tr>
<td>Pre-retirement decrements</td>
<td>None</td>
<td></td>
</tr>
<tr>
<td>Retirement age</td>
<td>Earliest eligibility</td>
<td></td>
</tr>
</tbody>
</table>

Selected commutation functions to be used for 414(l) calculations:

<table>
<thead>
<tr>
<th>Age</th>
<th>(D_x)</th>
<th>(N_x^{(12)})</th>
</tr>
</thead>
<tbody>
<tr>
<td>55</td>
<td>229,697</td>
<td>2,724,628</td>
</tr>
<tr>
<td>60</td>
<td>159,659</td>
<td>1,757,789</td>
</tr>
<tr>
<td>65</td>
<td>109,332</td>
<td>1,089,694</td>
</tr>
</tbody>
</table>

The plan is over 100% funded based on IRC section 414(l).

The assumptions are deemed reasonable.

On 1/1/2010, the benefits for Smith, Jones, and Brown are spun off into another qualified defined benefit plan maintained by an employer outside of the controlled group.

**Question 50**

In what range is the minimum asset value that must be allocated to Smith, Jones, and Brown to meet the requirements of IRC section 414(l)?

(A) Less than $220,000
(B) $220,000 but less than $270,000
(C) $270,000 but less than $320,000
(D) $320,000 but less than $370,000
(E) $370,000 or more
**Data for Question 51** (4 points)

Type of Plan: Multiemployer.

Effective date: 1/1/2005.

Normal retirement benefit: $30 per month per year of service.

Early retirement eligibility: Age 60.

Early retirement benefit: Accrued benefit payable immediately.

Vesting: Immediate.

Valuation interest rate: 7% per year.

Data for participant Smith:
- Date of birth: 1/1/1949
- Date of hire: 1/1/2009

Selected factors:

<table>
<thead>
<tr>
<th>Age</th>
<th>( l_x^{(r)} )</th>
<th>( \ddot{a}_x^{(12)} )</th>
</tr>
</thead>
<tbody>
<tr>
<td>61</td>
<td>690</td>
<td>10.94</td>
</tr>
<tr>
<td>62</td>
<td>580</td>
<td>10.68</td>
</tr>
<tr>
<td>63</td>
<td>0</td>
<td>10.46</td>
</tr>
</tbody>
</table>

All retirements are assumed to occur at the end of the year.

**Question 51**

In what range is the present value of future benefits attributable to Smith’s retirement benefit as of 1/1/2010?

(A) Less than $10,000

(B) $10,000 but less than $12,000

(C) $12,000 but less than $14,000

(D) $14,000 but less than $16,000

(E) $16,000 or more
Data for Question 52  (3 points)

Normal retirement benefit: $100 per month per year of service.

Segment rates: \{5.0\%, 6.0\%, 7.0\\%\}.

Data for sole participant Smith:

Date of birth  1/1/1949  
Date of hire  1/1/2000  

Selected commutation factors:

| Age | Segment 1 | | Segment 2 | | Segment 3 |
|-----|-----------|-----|-----------|-----|-----------|-----|
|     | \(N_x^{(12)}\) | \(D_x\) | \(N_x^{(12)}\) | \(D_x\) | \(N_x^{(12)}\) | \(D_x\) |
| 65  | 45,046    | 3,862 | 22,460    | 2,085 | 11,315    | 1,132 |
| 66  | 41,286    | 3,640 | 20,438    | 1,947 | 10,221    | 1,048 |
| 67  | 37,744    | 3,426 | 18,552    | 1,815 | 9,210     | 968  |
| ... |           |       |           |       |           |       |

| 81  | 6,971     | 1,147 | 3,099     | 532  | 1,390     | 249  |
| 82  | 5,880     | 1,024 | 2,595     | 471  | 1,155     | 218  |

Question 52

In what range is the funding target as of 1/1/2010?

(A) Less than $95,000
(B) $95,000 but less than $100,000
(C) $100,000 but less than $105,000
(D) $105,000 but less than $110,000
(E) $110,000 or more
Data for Question 53  (3 points)

Funding target attainment percentage as of 1/1/2008: 105%.

Effective interest rate for 2009: 6.0%.

Funding standard carryover balance at 1/1/2009: $0.

Prefunding balance at 1/1/2010: $0.

Valuation results as of 1/1/2009:

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Funding target</td>
<td>$500,000</td>
</tr>
<tr>
<td>Target normal cost</td>
<td>100,000</td>
</tr>
<tr>
<td>Value of plan assets</td>
<td>500,000</td>
</tr>
</tbody>
</table>

---

**Question 53**

In what range is the initial excise tax due under IRC Section 4971(a) on the unpaid minimum required contribution for the 2009 plan year?

(A) Less than $5,500
(B) $5,500 but less than $6,000
(C) $6,000 but less than $6,500
(D) $6,500 but less than $7,000
(E) $7,000 or more
Data for Question 54  (3 points)

Plan effective date:  1/1/2000.

Benefit formula:  $75 per month for each year of service.

Segment rates as of 1/1/2010:  \{4.0\%, 5.0\%, 6.0\%\}.

7-year shortfall amortization factor:  6.1596.

Funding standard carryover balance and prefunding balance are both $0 as of 1/1/2010.

Funding target attainment percentage as of 1/1/2010 is 95%.

Data for sole participant Smith:

Date of birth  1/1/1970
Date of hire  1/1/2000
Date of termination  7/1/2009

Selected commutation functions:

\[
\begin{array}{ccc}
N_{65}^{(12)} & \text{Segment rate 1} & \text{Segment rate 2} \\text{Segment rate 3} \\
90,763 & 44,770 & 22,323 \\
7,149 & 3,838 & 2,073 \\
\end{array}
\]

\(X\) = the decrease in the \textbf{minimum required contribution} for the 2010 plan year as of 1/1/2010 due to Smith’s termination.

Question 54

In what range is \(X\)?

(A) Less than $2,000
(B) $2,000 but less than $2,200
(C) $2,200 but less than $2,400
(D) $2,400 but less than $2,600
(E) $2,600 or more
Data for Question 55 (2 points)

Consider the following statements regarding funding rules under PPA:

I. The at-risk target normal cost includes a load if a plan is in at-risk status and has been in at-risk status for any two out of the prior four years.

II. The target normal cost includes the excess of the at-risk normal cost over the not-at-risk normal cost multiplied by 20% times the total number of years the plan has been in at-risk status out of the last five years.

III. The at-risk funding target can be less than the funding target calculated without at-risk assumptions.

Question 55

Which, if any, of the above statement(s) is (are) true?

(A) None

(B) I only

(C) II only

(D) III only

(E) The correct answer is not given by (A), (B), (C), or (D) above.
Data for Question 56 (4 points)

Type of plan: Multiemployer.

Actuarial cost method: Unit credit.

Valuation interest rate: 8% per year.

Selected valuation results as of 1/1/2009:

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Accrued liability</td>
<td>$950,000</td>
</tr>
<tr>
<td>Actuarial (market) value of assets</td>
<td>800,000</td>
</tr>
<tr>
<td>Normal cost</td>
<td>850,000</td>
</tr>
</tbody>
</table>

2009 plan year contribution: $950,000, made on 10/1/2009.

Effective 1/1/2010, the plan formula was amended to increase the active liability by 10%, for all service.

Increase in accrued liability due to change in mortality assumption effective 1/1/2010:

<table>
<thead>
<tr>
<th>Description</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Active participants</td>
<td>7.00%</td>
</tr>
<tr>
<td>Inactive participants</td>
<td>5.00%</td>
</tr>
</tbody>
</table>

Selected valuation results as of 1/1/2010, after increase for mortality assumption and change in plan formula:

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Accrued liability (actives only)</td>
<td>$2,050,000</td>
</tr>
<tr>
<td>Accrued liability (inactives only)</td>
<td>250,000</td>
</tr>
<tr>
<td>Actuarial (market) value of assets</td>
<td>1,600,000</td>
</tr>
</tbody>
</table>

Question 56

In what range is the absolute value of the actuarial (gain)/loss base established at 1/1/2010?

(A) Less than $275,000

(B) $275,000 but less than $350,000

(C) $350,000 but less than $425,000

(D) $425,000 but less than $500,000

(E) $500,000 or more
Data for Question 57 (2 points)

Asset valuation method: Fair market value.

Fair market value of assets as of 1/1/2010 (excluding receivable contributions): $1,000,000.

Contributions for the 1/1/2009 plan year:

<table>
<thead>
<tr>
<th>Date</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>7/1/2009</td>
<td>$25,000</td>
</tr>
<tr>
<td>9/1/2010</td>
<td>300,000</td>
</tr>
</tbody>
</table>

Effective interest rate:

1/1/2009 plan year: 5.00%
1/1/2010 plan year: 5.75%

Question 57

In what range is the value of plan assets as of 1/1/2010 for purposes of determining contribution requirements for the 1/1/2010 plan year?

(A) Less than $1,290,000
(B) $1,290,000 but less than $1,295,000
(C) $1,295,000 but less than $1,300,000
(D) $1,300,000 but less than $1,305,000
(E) $1,305,000 or more
Data for Question 58 (4 points)

Effective date: 1/1/2004.

Normal retirement benefit: 7.5% of final 4-year average compensation for each year of service.

Early retirement benefit: Actuarial equivalent of accrued benefit.

Death benefit: Present value of accrued benefit.

Normal retirement age: 62.

Early retirement eligibility: Age 55 and 5 years of service.

Plan actuarial equivalence:

<table>
<thead>
<tr>
<th>Interest rate</th>
<th>6%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mortality</td>
<td>Applicable mortality table</td>
</tr>
</tbody>
</table>

Data for sole plan participant Smith:

<table>
<thead>
<tr>
<th>Date of birth</th>
<th>12/31/1952</th>
</tr>
</thead>
<tbody>
<tr>
<td>Date of hire</td>
<td>12/31/2001</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Year</th>
<th>Compensation</th>
</tr>
</thead>
<tbody>
<tr>
<td>2006</td>
<td>$200,000</td>
</tr>
<tr>
<td>2007</td>
<td>230,000</td>
</tr>
<tr>
<td>2008</td>
<td>250,000</td>
</tr>
<tr>
<td>2009</td>
<td>250,000</td>
</tr>
</tbody>
</table>

Selected values of $a_x^{(12)}$ using the applicable mortality table:

<table>
<thead>
<tr>
<th>Age</th>
<th>5%</th>
<th>6%</th>
</tr>
</thead>
<tbody>
<tr>
<td>57</td>
<td>14.06</td>
<td>12.74</td>
</tr>
<tr>
<td>62</td>
<td>12.68</td>
<td>11.61</td>
</tr>
<tr>
<td>65</td>
<td>11.79</td>
<td>10.87</td>
</tr>
</tbody>
</table>

Question 58

In what range is participant Smith’s annual benefit payable commencing 12/31/2009?

(A) Less than $70,000

(B) $70,000 but less than $80,000

(C) $80,000 but less than $90,000

(D) $90,000 but less than $100,000

(E) $100,000 or more
Data for question 59  (2 points)

Early retirement eligibility: Age 60 with 10 years of service.

Early retirement benefits:
   Age 60 with 10 years of service Accrued benefit, reduced 5% per year by which benefits commence before age 62
   Age 60 with 30 years of service Accrued benefit without reduction for early retirement

Termination benefits: Benefits begin as early as age 60, reduced 6% per year by which benefits commence before age 65.

The plan has over 1,000 active participants.

Consider the following proposed assumed rates of termination/retirement, as applied to a participant age 58 with 27 years of service as of the valuation date:

<table>

</tbody>
</table>

The actuary has no credible past experience regarding retirement patterns for this group.

Question 59

Considering only the information presented above, which of the above proposed sets of decrements is the most appropriate?

(A) Table I
(B) Table II
(C) Table III
(D) Table IV
(E) Table V
